

Illustrator CC - Introduction

Course #: AIL-100 **Duration:** 1 day

Prerequisites

None.

Details

This course focuses on Adobe® Illustrator® CC, the component within Creative Cloud used to create drawn graphics, while enabling its users to integrate content from other domains. With Illustrator's many tools, you will unlock the same creative impulses you have always had as you have picked up a pencil to sketch out an idea. You can capture those multiple ideas and “what ifs” during the creative process in ways that you never imagined. This course covers the Graphic Design & Illustration Using Adobe Illustrator CC objectives to help students prepare for the Adobe Certified Associate (ACA) exam. This course is also designed to cover the Adobe Certified Expert (ACE) exam objectives.

Software Needed

- Adobe® Illustrator® CC
- Please Note: This course is taught using the Windows version of Adobe® Illustrator® CC, but Mac students will have no problem learning on their environment.

Outline

Illustrator CC - Introduction

- **Exploring Illustrator**
 - Bitmaps versus Vector Graphics
 - Starting Illustrator
 - The Start Workspace
 - Starting a Drawing
 - The Application Window
 - Parts of the Screen
 - Managing Panels
 - The Tools Panel
 - The Control Panel
 - The Properties Panel
 - Managing Panels
 - The Status Bar
 - Choosing a Workspace
 - Exiting Illustrator
- **Preparing to Draw**
 - Understanding the Artboard
 - Using the Rulers
 - Using the Grid
 - Using Guides
 - Opening a Drawing
 - Working with Multiple Drawings
 - Selecting Objects
 - Undoing and Redoing Actions
 - Zooming and Moving
 - The Navigator Panel

- Saving a Drawing
- Closing a Drawing
- **Creating Basic Shapes**
 - Understanding the Shape and Color Tools
 - Creating Basic Shapes
 - Creating Polygons
 - Creating Other Shapes
 - Creating Lines and Spirals
 - Editing Path Segments
 - Using Offset Path
 - Understanding Drawing Modes
- **Manipulating Objects**
 - Transforming Objects
 - Copying and Moving Objects
 - Duplicating Objects
 - Positioning Objects
 - Aligning and Distributing Objects
 - Changing the Order of Objects
 - Grouping Objects
 - Locking Objects
- **Formatting Objects**
 - Understanding Fill and Stroke
 - Understanding Color
 - Understanding Color Controls
 - Applying Color Using the Color Panel
 - Applying Color Using the Swatches Panel
 - Applying Color Using the Eyedropper Tool
 - Swapping Fill and Stroke Colors
 - Working With Stroke Weight, Width and Style
