

Social Media Strategist

Course #: SM-100 Duration: 2 days

Prerequisites

None.

Details

What videos and hashtags are trending right now? Is your website integrated with popular social media platforms? Would Facebook advertising be a good fit for your organization? Should you have a blog? How can you monitor and respond to negative comments on social media? A talented social media strategist can answer these questions!

In this course, we examine the history of social media and how it has changed marketing and advertising initiatives in the world of business. We will tackle the major social media platforms and teach you how to develop and implement an organization's social media strategy. In two short days, you will acquire the essential skills to launch a career in social media, including everything from conducting market analysis to launching successful campaigns.

Software Needed

None.
