

Word Introduction

Course #: MW-100 **Duration:** 1 day

Prerequisites

None.

Details

This course covers the basic skills and concepts students need to use Microsoft Word productively and efficiently. After an introduction to Word's window components, students will learn how to create and save documents and how to navigate documents. Then they will edit, copy and paste, and find and replace text. They will also learn how to enhance the appearance of a document by using various formatting options. In addition, they will create tables, adjust page layout, work with graphics, set tabs, and proof and print documents.

This course will help students prepare for the Microsoft Office Specialist core-level exam and the Microsoft Office Specialist Expert exam. For comprehensive certification training, students should complete the Introduction, Intermediate and Advanced courses for Word.
